

Position Description

Position title:	Plunket Nurse
Business unit:	Operations
Location:	
Reports to:	Clinical Leader Operations Manager

“In the first 1000 days we make the difference of a lifetime”

Plunket Strategy

The Plunket Strategy 2016-2021 is focused on making a difference for New Zealand children and whānau in their first 1000 days of life. To achieve this vision, we aim to be a cohesive and great national organisation grounded in evidence and best practice, with the needs of New Zealand families and whānau at the very centre of everything we do.

Business Unit overview

This role is part of the Operations team which delivers Plunket services to whanau right across New Zealand. As a member of the Operations team, which includes all of our volunteers and volunteer services, you will help families and whanau to reach their goals and contribute to national and local initiatives that improve the way we do things at Plunket. We want to make sure we're here to support families and whanau for another 100 years.

Operations team members are One Team who are skilled and passionate, who innovate to improve, who seek new ways of funding our free services and who partner with others who deliver services to families and whanau to make sure that every child in Aotearoa New Zealand has the chance to be the best they can be.

Purpose of position

To provide family/whanau-based well child health care that incorporates the Standards for Plunket Nurse Practice, Royal New Zealand Plunket Society, 5th Edition, March 2003 and achieve well child targets as outlined in the “The Well Child Framework” and Plunket contractual requirements.

Dimensions of the position

Functional relationships: *To follow are the main positions that this role will coordinate with; they are not meant or intended to be exhaustive, exclusive or limiting:*

Internal:

- Plunket Volunteers
- Community Karitane
- Plunket Kaiawhina
- Administration Staff
- Clinical Advisors
- Clinical Educators

External:	External agencies Other Plunket Nurses
------------------	---

Scope of practice

A Plunket Nurse is a Registered Nurse who has completed or is completing further specialty training in the area of Well-Child health/community child and family/whanau health promotion. The focus is on delivering a primary health care service based on the Tamariki Ora Schedule (health promotion, education, clinical assessment and whanau/family support) to child clients aged birth to approximately 5 years, and their whanau/families/caregivers.

Plunket Nurses work from a variety of community locations including clinics, homes, Marae and early childhood centres and have extensive knowledge of the communities they work in. Advanced assessment skills and knowledge of child health and development enable Plunket Nurses to provide and co-ordinate care, information, surveillance, and support appropriate to the whanau/families situation. The nature of these interventions is continuous rather than episodic, in a wellness model of health that aims to reduce inequalities of health.

Plunket Nurses act as case managers within a Plunket team and work in collaboration with volunteers and external agencies to enhance parenting capacity and child health outcomes. Practice is therefore socially defined and connects health to families/whanau and communities.

Key accountabilities

(Some will be unique to the position; others will be common across the organisation and level within the organisation.)

Domain	Key Concepts	Performance Indicators/Outcomes
PRIMARY HEALTH CARE NURSING. Standard. The Plunket Nurse incorporates principles of primary health care within nursing practice.
